

Welcome to your Community Link!

Twin Cities Development Community Link was established for a variety of uses.

We are a vibrant community of 24,000 residents, experiencing an abundance of job opportunities.

We would like to encourage graduates and former residents from the Scottsbluff/Gering area to return home to take advantage of these employment opportunities. We are seeing many people return with family ties to our community. We also want to welcome those who may have moved to our community for the first time. This site provides information for newcomer's and long time residents to become more familiar with and integrated into our community.

The Scottsbluff/Gering area is the hub of all of Western Nebraska. You may be surprised at what we have to offer – plentiful job opportunities, higher quality of life and a lower cost of living than many cities such as Denver, Omaha, Kansas City and Chicago. Check out the information on this site and you will find the Scottsbluff /Gering area a place where you can enjoy the mid-west lifestyle and find a great career.

It's our community, get into it!
